

**UWM Research Foundation
Research Fellows Program
Call for Applications**

The UWM Research Foundation is pleased to announce a call for applications in the third round of the UWMRF Research Fellows Program. The program is designed to help UWM researchers attract and retain the best and brightest research assistants and post-doctoral researchers to improve the productivity of their research efforts. The program is open to researchers in the sciences, engineering and business.

The program will award \$5,000 per year for two years in funds for an individual research assistant or \$7,500 for one year for a post-doctoral researcher. These funds are intended to be over and above other funds received by the research assistant or post-doctoral researcher, and principal investigators must demonstrate base support for these positions. To date, the program has awarded a total of \$125,000 in two phases.

UWM Researchers are invited to apply to the program based on a demonstrated record of scientific achievement for their research program, need for funds to attract top candidates and at least one year of committed base support for the research assistant or post doctoral fellow. UWM researchers will be selected as the "Sponsoring PI" and funds will be awarded directly to the research assistant or post doctoral fellow.

Researchers are asked to complete an application by Friday, October 22, 2010. Sponsoring PI's will be notified of their selection by December 6, 2010. Summary of the program and application are available on the UWM Research Foundation website at www.uwmresearchfoundation.org.

Questions should be directed to the Research Foundation:
